## Discover Real Stories of Improvement at Texas Infusion Center

At Texas Infusion Center, our patients' stories are a testament to the care and expertise that we provide. Each journey is unique, but the common thread is the remarkable improvements our patients experience across a variety of conditions, including diabetes and chronic illness. Below, you'll find brief snapshots of their stories, highlighting the benefits they've received from our treatments. We invite you to watch their full video testimonials and see for yourself how our approach has made a difference in their lives.

### Rick

*"The first thing I noticed was I was able to reduce diabetic medications by half after six to eight weeks of therapy. I (also) found that my eyesight had improved to a point where I needed a new prescription for my glasses and shocked and surprised the optician when she was fitting me for those new lenses."*

### Keryn

*"Following just five weeks of treatment, I could feel my feet, drove for the first time in five years, and woke up one morning without the exasperating fibro pain in my shoulders and arms. I think I might be a miracle. I'm getting a lot better, and I can't sing the praises of this program loudly enough."*

### Gary

*"The infusion – I'm on every other week now, and it makes everything better. I ( have) more energy, I (have) feeling in my feet now, and I can also walk barefoot where I couldn't before because they were so tender."*

### Dovie

*"My neuropathy has went away, and then, my diabetes has gotten under control. They've taken me off of high blood pressure medicine. Ever since I've started about a year ago, I've lost 100 pounds... When I first started, I couldn't walk. It took everything I had to walk in here... I walk a mile a day, and then I go dancing, at least try to do it three times a week."*
